Copy 878
7 July 1966

MEMORANDUM FOR: Acting Director of Special Activities
SUBJECT: FY 66 NRO Funding

1. As of this date, the probable amounts of NRO funds that will be excess to FY 66 needs are as follows:

25X1A

25X1A

a. OXCART - [] of which [] is in the engine support account.

25X1A

b. IDEALIST - []

2. These funds will remain unobligated, and will be returned to the NRO after full definition of contract costs, and will, in fact, be lost to OSA. There will be no prior year funds as such returned to DD/S&T, as has happened in previous years.

3. It is suggested that if you have knowledge of valid items that must be contracted for, that this be done at the present time. It must also be noted that hoarding or banking of funds is not condoned, and we cannot obligate funds merely to have them available for FY 67.

4. It is intended to close the books on Monday, 11 July, and therefore any obligations that you wish satisfied with FY 66 funds should be completed prior to that time.
